

Spreader Bar for Forklift

Forklift Spreader Bars - ELME has been proudly operating ever since the year 1974, becoming the biggest independent spreader manufacturer in the world. They are a dedicated manufacturer of spreaders utilized for numerous various applications like the handling of containers, swap bodies and trailers.

Engineering is done in-house by way of making use of the most up-to-date CAD systems and FEM tools. The ELME business currently has more than one hundred twenty five staff members. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks around the globe.

The product range of ELME include numerous spreaders designed for a variety of container and trailer handling operations. Some of their inventory include: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes plus a huge range of additional parts.

ELME manufacturing and production is performed in a highly automated purpose built factory. In 2008, they made more than 1150 spreaders by means of utilizing high quality parts to ensure dependability and excellent standards while offering reasonable prices. Major features of ELME consist of design simplicity, market reaction and inventive modular spreader concept.
