

Fork Mounted Sweeper

Fork Mounted Sweeper - The lift truck mounted broom attachment could really make industrial sweeping work a lot easier. Intended for use on either wet or dry surfaces, this mounted broom attachment could squeegee water and push snow without problems. This attachment is usually used so as to clean trash from docks, parking lots, warehouses, construction sites and almost anyplace it is required. The lift truck sweeper is a low maintenance attachment which utilizes quick-tite fork products to effortlessly connect to the forklift.
