

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of each international industry. Transporting industrial goods takes place each and every day on our industrious world. Initially innovated as industrial vehicles in the 1930s in the United States of America, forklifts gained popularity following World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machinery spread globally.

In the year 1949, established by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Presently the business is simply known as TCM Corporation. Over the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation with the business. TCM started constructing lift truck manufacturing sites outside of Japan during the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly makes various models of industrial forklifts with more than 50 years of accumulated expertise and technology, making their products used and recognized all over the world. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aspires to become a world-class leading company.
