

Meritor Part

Meritor Parts - The Meritor Company is a leading global supplier built upon 100 years of custom of quality and service. Meritor concentrates on integrated systems with a range of modules and components to the original equipment manufacturers and aftermarket equipment in the industrial and transportation trades.

Meritor prides itself in the company's distinctive energy and thinks that this particular energy contributes to their competitive advantage in the global operations. The company values all of their customers and wishes to guarantee their success while anticipating their various needs. Meritor starts with a culture which values diversity of people and their broad thought processes. Operating in 19 countries and hiring over 11,200 individuals, Meritor promotes innovation and collaboration amongst a team of knowledgeable experts.

Meritor strongly believes in just employing future focused workers. These top-caliber workers can rapidly adapt to changing surroundings and freely exhibit the level of performance and commitment necessary to be able to attain results for the competitive market environment. The business empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor provides all of their staff various chances for personal and professional growth.

Their Advanced Engineering team is at the forefront of components and system engineering that include axles, drivelines, braking and suspension systems meant for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is also responsible for supporting the requirements of all their international engineering staff.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities that are located all over the world in 19 countries and in 5 different continents.

They have their supplier network which is specially situated in order to support the development of the business. Every regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making within each part of the business. The DFSS or also referred to as Design for Six Sigma ensures product reliability in each and every region. The team is even comprised of transactional Green Belts who apply Six Sigma tools to business techniques and implement lean methods.
